The **International Centre for Mechanical Sciences (CISM)** Udine, Italy, will organize among others the following Advanced Schools:

Advanced Professional Training course on Monitoring, Control and Identification of Bridges by Dynamic Methods

Udine, May 24 - 28, 2010

Coordinated by Francesco Benedettini (Università dell'Aquila, Italy) and Antonino Morassi (Università di Udine, Italy).

Information about the contents of this school and the procedure for admission can be found at <http://www.cism.it/courses/A1001/>.

Variational Models and Methods in Solid and Fluid Mechanics

Udine, July 12 - 16, 2010

Coordinated by Sergey Gavrilyuk (Polytech Marseille, France) and Francesco Dell'Isola (Università di Roma, Italy).

Information about the contents of this school and the procedure for admission can be found at <http://www.cism.it/courses/C1006/>.

Exploiting Nonlinear Behaviour in Structural Dynamics

Udine, September 13-17, 2010

Coordinated by David J. Wagg (University of Bristol, Great Britain) and Lawrie Virgin (Civil and Environmental Engineering, Durham, USA).

Information about the contents of this school and the procedure for admission can be found at <http://www.cism.it/courses/C1009/>.

The above CISM's courses may be of interest to you and/or to your co-workers and doctoral students.

Thank you for your kind consideration.

Best regards,

Professor Bernhard Schrefler
Secretary General of CISM

Professor Giulio Maier
Resident Rector of CISM

CISM is a non-profit institution
