Dear Professor,

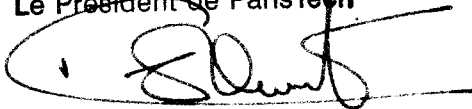

I am pleased to inform you that the ICARE Institute has been accredited by the Chinese Ministry of Education on March 29th, 2012. From now on, the Institute is entering the fully official phase of its existence and is taking a major step. Authorized to recruit 150 students per year until 2014, ICARE can now directly recruit students throughout China and in the rest of the world.

This accreditation now makes possible to organize official events such as the inauguration of the Institute which should be officially opened by the European and Chinese Authorities before the end of the year.

I hope this will strengthen relationships between partners of the consortium especially in the development of the ICARE vocational training programme and the research platform.

Your sincerely,

Le Président de ParisTech

Cyrille van Effenterre
