Θέμα: TOYOTA is offering Internship positions at its research center in Belgium

TOYOTA is offering Internship positions at its research center in Belgium.

The expected number is ~ 5 positions for the duration of March 2014-Feb 2015.

Even though the actual projects are not yet fixed they are expected to be in the following areas:

- 1- New diesel combustion concept (evaluation and simulation)
- 2- New Diesel exhaust concept (Evaluation and Simulation)
- 3- Investigation of powertrain technology for Europe for 2020 and 2025 (Technology investigation and vehicle modelling)
- 4- Investigation of Power performance and CO2 reduction based on Vehicle investigation on Chassis Dynamometer

Graduate, PhD Candidates or Post graduate students that have the potential and are interested for the specific internship program are encouraged to contact Prof. D. Hountalas (dx1961@central.ntua.gr) and provide their CV for consideration.
