

EULiST Blended Intensive Program

EULiST organises the first Blended Intensive Program: “Monitoring Clean Energy in the EULiST Campuses”

31 May - 13 October 2023 - online and onsite in Athens, NTUA

Within the Alliance EULiST “European Universities Linking Society and Technology”, the National Technical University of Athens (NTUA), organizes in cooperation with Lappeenranta-Lahti University of Technology (LUT)-Finland, Jönköping University (JU)-Sweden, Leibniz Universität Hannover (LUH)-Germany, Institut Mines-Télécom (IMT)-France, Slovenská technická univerzita v Bratislave (STU)-Slovakia, University of L'Aquila (UnivAQ)-Italy, the Erasmus+ Blended Intensive Program (BIP) titled “Monitoring Clean Energy in the EULiST Campuses”.

The BIP program is organised in the framework of EULiST WP 2 “Campus”, and in particular Task 2.1 “Digital Campus infrastructure” and Task 2.4. “Sustainable Campus Initiative”, in collaboration with WP4 “Research and Innovation”.

The call for applications is addressed to undergraduate, postgraduate and PhD [#students](#) , coming from the coorganizing EULiST Universities, that are interested in the topics addressed and enrolled in the following fields of study: STEM, Environmental Sciences, Business and Management, Social Sciences.

Students from all EULiST universities are welcome to participate as zero-grant participants. Upon successful graduation, students will receive 3 ECTS credit points from the National Technical University of Athens.

The content of the BIP program is described in the call for applications just launched:
